# Christmas C.TO

Old Santa the queerest, As well as the dearest; Surprises he sends without end; He now has a daughter,
And well has he taught her,
Hurrah for Miss Santa our friend !

Her eyes are the brightest, Her teeth are the whitest, Her cheeks are as red as a rose; Her lap's full of gay things, Red candies and play things She leaves them wherever she goes. Miss Santa before you Are men who adore you,
As much as we love you ourselves.
One heart will be broken, When each man has spoken, And this is the wish of your elves

The lovers who woo you, This evening will sue you For one priceless gift they do lack, The Baron is smitten, But give him the mitten, And give your dear heart to our Jack.

Of the crowds who are buying their sensible and useful Christmas eitts at Graham's, the King Clothier. No middlemen's profits. It is not so often that a stock of high-class Clothing as our great \$36,000 city stock comes on the market at a time when almost every man and boy requires new Suits Overcoats and Furnishings. Make your selections from these faultless styles nos at prices less than other merchants can buy them for. Gits he will like. We're crowding out the Suits, Top Coats, Hats, Neckwear and other Toggery to Santa Glaus shoppers in first style. As we bought at slightly under half-price, thinking people having a language and a grateful reference. a keen eye to business soon catch on and so we catch the crowd.

You'll undoubtedly pronounce this the best assortment of Furs in Lindsay. The smallest piece of fur receives our same careful attention as the largest or most expensive garment in stock. The prices are lowthe result of many months' careful search in the fur manufacturing centres.

Furs are not priced lower anywhere than these, and we invite your inspection.

There's a smartness about the general get-up of our men's clothing that ap-

peals readily to those wanting the season's styles. The mater-ials are the best possible to pro-cure—bought direct from th: maker—in many instances made especially for us. This quality of clothing couldn't be lower priced than our small profit added to the net cost of the instances. dividual garment. ## Who Will Contest the Riding in the Reform Interest

at the Approaching Provincial Election.

MR. THOS. STEWART

The first gun in the Provincial campaign was fired by Hon. The first gun to the Provincial campaign was need by a some G. W. Ross last Tuesday night at Napanee, when in a two hours' speech he made a brilliant defence of his Government's administration of Provincial affairs. While admitting that irregularities had been committed by a few Liberals, he gave a solemn denial to the Opposition charge that he was cognizant

make free with the grand resources of this lair Province.

We do not think any Liberal in West Victoria will permit himself to be stampoded into voting against his party by the shallow, though carefully planned arrifices of the Opposition. They will remember that all good and progressive measures have emanated from the Liberal party, and that the Jounnain source is not tained because a few impurities have accidentally found their way into the unguarded basis. Mc Stewart stands for a clean fight and clean politics, and one—however strong his most circles—need besides to give him corofial and his most convictions—need besides to give him corofial and

heary support is the present context.

That Mr. Stevart will him we firmly bolieve. There is but one danger with the Liberal cause and that is failure or neglect to use all proper methods of effective organization and work to win. That might be fatal. But if the Liberals get to work unicidy and at once and plan to get every vote to the polls a victory is assured. All they have to do is to poll the vote. With the excellent organization Mr. Stewart is sure to set working, and the magnificent record of service to the Province that Liberals can appeal to, we should and can win. Let there be nothing honorable left undone to do so.

All friends—and they are legion—of Mr. Thos. Stewart, Liberal Candidate for West Victoria, will learn with much satisfaction that he is meeting with graitifying uccess in his canvass of the electors of the riding. This is but fair and proper, and a rightful recognition of his strong claims upon the people in whose milest he has spent the years that divide him from his bothood.

him from his boyhood.

Since assuming a prominent place in the public life of Linday, Mr. Stewart has done much for the town and also for the compty at large. He aided materially in securing several grains for the improvement of the Scogog, and no deputation lie Ottuwar of Tromoto was considered complete reasoning, incisive arguments and personal influence, combinated to the complete and the security of the protection of the property of the

We feel assured that West Victoria will roll up a substantial majority for the best man. The election of Mr. Stewarf in this constituency means many material advantages for our people, the sum of which would be larged increased in the event of his election to the Cabinet—as the event of his electrion to the Cabinet—as above the material advantages that we know will accrue from his election, we know that Mr. Stewart stands for Honesty, Integrity and Monality in public as well as in private affairs. We may afely trust West Victoria to record a magnificent verdict for this worthy son of her own

## Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

¶ From time immemorial the doctors prescribed cod liver oil for consumption. Of oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

## SCOTT'S **EMULSION**

and tolerate it for a long time. There is no oil, not time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, d that is the reason it is and that is the reason it is so helpful in consumption where its use must be continuous.
